

Work with one company instead of several!

Rapid Innovation

Digital Transformation

Sustainability

Technology-Driven
Optimization

Save months and millions.

Kinetic Vision supplies all-encompassing services under one roof to save you time and money.

We have been an industry leader in accelerated product and technology development for over 30 years, and are honored to count over 50 of the Fortune 500 companies as our valued clients. We're not just consultants - we're fully integrated partners who solve complex challenges and help define "what's next".

Our expertise spans all phases of the product life cycle, including rapid innovation of new products, sustainable design, process optimization, quality control automation, and industrial digital twins. Our teams are built of creative and skilled designers, developers, and engineers working collaboratively under one roof in our 51,400 sf Innovation Center.

We make it all possible with nearly half the space dedicated to rapid prototyping, scanning, physical testing labs, VR motion capture, machine shop, and ample space for client project hardware. Whether your ultimate objective is saving time, money, or both, your choice is easy: work with many different companies, or just one - Kinetic Vision.
